Subject: Errata for *Results of 2012 Biomonitoring and Ecological Studies at the Monticello Mill Tailings Site, Utah*

Dear Mr. Storck and Ms. Moritz:

Please correct the following typographical error in *Results of 2012 Biomonitoring and Ecological Studies at the Monticello Mill Tailings Site, Utah*:

In Table 2 on page 5 of the report, the arithmetic mean for Segment 4 was reported as 2.18 mg/kg Se. The correct value is 0.90 mg/kg Se.

This error did not affect other calculations in the report, and it did not affect the overall conclusion.

Please call me at 970-248-6016 if you have any questions. Please send any correspondence to:
