Notice of Public Availability

The United States Department of Energy Announces the Availability of the Sitewide Programs and Operable Unit 4 Administrative Records EG&G Rocky Flats Plant Golden, Colorado

The Administrative Record file under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) is a collection of all documents which were relied upon to select a response action for the clean-up of a hazardous waste site. Requirements for Administrative Records are established under section 113(k)(1) of CERCLA (1980), as amended by Superfund Amendments and Reauthorization Act (SARA) of 1986. The Department of Energy (DOE) seeks to inform the public of the record file and to encourage the public to comment on documents as they are placed in the record file.

DOE announces the availability for public review of files comprising the Administrative Record for the Proposed Interim Measure/Interim Remedial Action Decision Document for Operable Unit 4, Solar Evaporation Ponds, and documents within the the Sitewide Programs file supporting decisions made pertaining to Operable Unit 4. Other documents will be added to the record files as site work progresses. These additional documents may include, but are not limited to, the Remedial Investigation/Feasibility Study (RI/FS)/RCRA Facility Investigations/Corrective Measures Study (RFI/CMS) report, additional validated sampling data, comments by interested persons, and EPA responses to significant comments. Please direct written comments to:
