Radiological Health Section
Department of Health Services
744 P Street
Sacramento, California, 95814

SUBJECT: Certification Docket of Gilman Hall

Dear Dr. Ward:

The Department of Energy (DOE) has completed and reviewed the remedial actions of Gilman Hall located at the University of California, Berkeley, California. Based on this review, DOE certifies that the condition of Gilman Hall is radiologically acceptable for restricted use under the controls of the University of California's State General License 1333-62 provided that the University's Office of Environmental Health and Safety continues to survey Gilman Hall and monitor whenever remodeling or renovation takes place.

DOE has prepared a Certification Docket describing the remedial actions of Gilman Hall and published a Federal Register Notice announcing the existence of such documentation for public review.

Enclosed is a copy of the Certification Docket of Gilman Hall for your records. Please record in the appropriate land records the decontamination of Gilman Hall.

If you have any questions, please feel free to contact Phillip Hill of my staff at (415) 273-6599.

Sincerely,

James T. Davis, Director
Environment, Safety and
Quality Assurance Division
