Suite 301
Germantown, MD 20874

Dear Ken,

Per our conversation on July 11, 1988, enclosed is a current plot plan of the Linden Technology Center (old Standard Oil Development Company site). I hope this satisfies your information needs regarding the study you are doing concerning AEC contractor sites. We believe we have provided Mr. Charles young with all the information he required.

If you have further questions, please call me at (201) 730-3053.

Very truly yours,

Paul C. Bucknam
