Mr. William West
West Orange Tennis Club, Inc.
200 Pleasant Valley Way
West Orange, New Jersey 07052

Dear Mr. West:

The Department of Energy (DOE), as part of its Formerly Utilized Sites Remedial Action Program (FUSRAP), has reviewed information on Vitro Laboratories, formerly located on what is now property of the West Orange Tennis Club, to determine whether it contains residual radioactivity traceable to activities conducted on behalf of the Atomic Energy Commission (a predecessor to DOE). A radiological survey indicated that the radiation levels and radionuclide concentrations are at or near natural background levels. Therefore, no remedial action is required, and DOE is eliminating the former Vitro site from further consideration under FUSRAP.

We plan to issue a Federal Register Notice listing sites being eliminated from the FUSRAP. The former Vitro site at West Orange, New Jersey, will be included in the listing.

The information supporting this decision will be archived by DOE, and a copy of the elimination report will be available for public review between 8:00 a.m. and 4:00 p.m., Monday through Friday (except Federal holidays), at the DOE Public Document Room located in Room 1E-190 of the Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C.

If you have any questions regarding this decision, please contact Mr. Arthur Whitman of my staff at 301-353-5439.
