Klassing Hardbrake Company
P.O. Box 860
Joliet, Illinois 60434

Dear Mr. Klassing:

The Department of Energy (DOE) has completed its review of the preliminary radiological data from the May 1989 survey of your facility in Joliet, Illinois, which is the site of the former W. E. Pratt Manufacturing Company. We are pleased to inform you that the survey has verified that the radiological condition of your facility is in compliance with applicable DOE Guidelines and that no remedial action or further investigations are necessary.

We have directed our contractor, Oak Ridge Associated Universities, to send you a copy of the final report as soon as it is published. Once the final report is published, your site will officially be eliminated from further consideration in the Formerly Utilized Sites Remedial Action Program and information supporting that action will be placed in the DOE Public Reading Room in Room 1E-190 of the Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C.

If you have any questions regarding the survey results or our associated actions, contact Mr. Andrew Wallo of my staff at 301-353-5439 or me.

Sincerely,

JS

James J. Fiore, Director
Division of Facility and Site
Decommissioning Projects

Dear Mr. Edmonds:

Enclosed is a copy of the final survey report for your facility in Joliet, Illinois, which is the site of the former W. E. Pratt Manufacturing Company. This survey report documents the fact that the radiological condition of your facility is in compliance with applicable Department of Energy Guidelines and that no remedial action or further investigations are necessary.

If you have any questions regarding the survey results or our associated actions, contact Mr. James Wagoner of my staff at 301-353-2802.

Sincerely,

A handwritten signature in black ink, appearing to be "J. Fiore".
