Major Gary Widner
 Illinois National Guard
 Camp Lincoln
 1301 N. McArthur Blvd.
 Springfield, Illinois 62702

Dear Major Widner:

As we discussed during our telecon of December 5, 1985, I am enclosing two letters and their attachments (Enclosures 1 and 2) relative to information on the National Guard Armory at Chicago, Illinois. In response to your questions on previous notification of surveys and the associated results, we have nothing in our earlier files or those of the Department of Energy Chicago Operations Office (DOE/CHO) that indicates the survey results (draft reports) were forwarded to you, although verbal discussions between national guard members and representatives of the DOE/CHO, relative to the surveys and their findings, were held during and as a result of the initial contacts and surveys.

As further indicated during our telecon of December 5, 1985, and in our correspondence to you, the National Guard Armory, Chicago, Illinois, is being designated for remedial action. This action will be initiated by the DOE/Oak Ridge Operations Office-Technical Services Division (ORO-TSD); therefore, it would be more fruitful to discuss scheduling and work scope with them, specifically, Mr. E. L. Keller, Director of ORO/TSD, on 615-576-0948.

If you should need further assistance, please call Edward G. DeLaney on 301-353-4716.
