SUBJECT: Bliss & Laughlin Site Remedial Investigation, Feasibility Study, & Proposed Plan

MAILROOM
CECWB-IM-S

Honorable Daniel P. Moynihan
United States Senator
Guaranty Building, Room 203
28 Church Street
Buffalo, New York 14202

Dear Senator Moynihan:

I have enclosed a copy of the Remedial Investigation, Feasibility Study, & Proposed Plan, which was developed by the U.S. Army Corps of Engineers, Buffalo District, for the Formerly Utilized Sites Remedial Action Program Former Bliss & Laughlin Site. This document has been released for public comment from September 28, 1998 through October 28, 1998.

The preferred cleanup alternative for the Former Bliss & Laughlin Site is decontamination of the building, which is identified as Alternative No. 3, and explained on Page 21 of the Remedial Investigation, Feasibility Study, & Proposed Plan. This alternative presents no unacceptable risk to either workers or the general public, and can be implemented in a timely and cost effective manner.

If you need further information in regard to the FUSRAP Former Bliss and Laughlin Site, please contact me at (716) 879-4200, or call my Public Affairs Office at (716) 879-4438.

A copy of this letter is being forwarded to your Washington Office.

Sincerely,

SIGNED

Mark D. Feierstein
Lieutenant Colonel, U.S. Army
Commanding
