Re: Main Site Soils Record of Decision
Colonie FUSRAP Site
Site No. 401006
Colonie, Albany County, New York
Submitted March 2015

Dear Mr. Moore:

The New York State Department of Environmental Conservation and the New York State Department of Health (DOH) have reviewed the March 2015 Record of Decision for the Colonie FUSRAP Site (Main Site Soils). The areas of concern addressed by this action are Final Status Survey Units (FSS) 104, FSS 124 and the North Lawn.

The State concurs with the proposed remedial action which includes Land Use Controls in the form of environmental easements and a site management plan for the above named units. The Site Management Plan and Easement will be provided to New York State for approval after the ROD is signed. If you have any questions, please contact Mr. John Abunaw at (518) 402-8776.

Sincerely,

Robert W. Schick, P.E.
Director
Division of Environmental Remediation

ec: Krista Anders, DOH
