2000 Day Hill Road  
Windsor, CT 06095

December 12, 2008

Subject: Kreisinger Labs and Hot Waste Vault - Purchase Order 135175

Dear Mr. Conant:

Enclosed with this letter is a copied document from David Bahlman, Deputy State Historic Preservation Officer accepting the report on Buildings 3 and 6. It also states that "no further coordination and /or mitigative measures are warranted regarding the ABB Windsor remediation project".

The following items were shipped to you on November 29, 2008:

Packing List:

- 2 Bound copies of the report
- 51 Archival Photos in archival envelopes
- Digital Files as follows on six (6) archival gold CD-ROMs:
  - Digital files of the report in WORD doc format
  - Individual Report Photos in .tif format
  - All graphics in .tif format
  - Individual Report Photos in .jpg format
  - Report Photos as a Power Point Slide Show file

Similar files were sent to CTSHPO and have been accepted as indicated in the enclosed letter. I have submitted an invoice to Keith Knauerhase in the Raleigh Office as indicated in the referenced purchase order.

It was a pleasure working with you, your group and Mactec on this interesting project. If you need any additional digital files for Power Point presentations they can be provided.

Best regards,

Bob Stewart  
Principal, Historical Technologies
