**SUBJECT: Painesville Site Volume Estimate Report**

[REDACTED], Chief  
Office of Federal Facilities Oversight  
Ohio Environmental Protection Agency  
401 E. Fifth Street  
Dayton, OH 45402

[REDACTED]

Enclosed for your information is a copy of the In-Situ Contaminated Soil Volume Estimate and Construction Footprints Report for the Painesville Site, Painesville, Ohio. This report presents the estimated volume of FUSRAP contaminated soil requiring excavation at the Painesville Site, based on the Derived Concentration Guideline Levels (DCGLs) presented in the 2005 Proposed Plan for Remediation. The volume estimates incorporate data collected during the pre-remediation sampling event conducted in the fall of 2005, as well as historical data from the 1998 Site Characterization Report and the 2003 Remedial Investigation/Feasibility Study Report.

If you have any questions, feel free to contact me at [REDACTED]

Sincerely,

[REDACTED]

Project Manager
