Proposed Plan for the Painesville FUSRAP Site Released for Public Comment

Formerly Utilized Sites Remedial Action Program (FUSRAP)

The Proposed Plan for the Painesville FUSRAP site explains that three alternatives were considered, and that soil excavation and removal is the preferred alternative. The official 30-day comment period for the Painesville Site Proposed Plan closes on August 22, 2005.

Written comments should be mailed to:

U.S. Army Corps of Engineers, Buffalo District Attn: CELRB-PM-F 1776 Niagara Street Buffalo, NY 14207-3199

and must be postmarked by close of business on August 22, 2005.

Copies of the Proposed Plan are available for viewing on our website at http://www.lrb.usace.army.mil/fusrap at the above address and also in the Administrative Record Files at the Fairport Public Library at 335 Vine Street, Fairport Harbor, Ohio 44077 or the Morley Library at 184 Phelps Street, Painesville, Ohio 44077.

Corps Announces Public Meeting

The U.S. Army Corps of Engineers will hold a public meeting to discuss the proposed remediation plan for the Painesville site.

The meeting will be held:

Tuesday, July 26, 2005 7 - 9 p.m. VFW Post 7754, 540 New St. Fairport Harbor, OH 44077

You are welcome to come and hear about the Corps proposal to remediate radiological contamination at the Painesville Site, comment on the proposal, and participate in the decision-making process.

The public comment period will close on August 22, 2005. Your comments are important and will be accepted either verbally or in writing.

For further information call (716) 879-4396 or (800) 833-6390

The Formerly Utilized Sites Remedial Action Program (FUSRAP) purpose is to identify, investigate and cleanup or control. sites throughout the United States that were part of the nation's early atomic weapons and energy programs performed by the Manhattan Engineer District or the Atomic Energy Commission, respectively.

The Corps execution of FUSRAP follows the Comprehensive Environmental Response. Compensation and Liability Act (CERCLA).
