Please be advised that the undersigned is one of the attorneys representing the Passaic County Board of Chosen Freeholders and is assigned the task of representing the Passaic County Engineering Department and the Passaic County Operations Department (Road Department). Recently, Operations reported to the Engineering Department about a continuing problem with regard to water running off from your property on to Black Oak Ridge Road, a Passaic County-owned roadway. They further reported that this water may present a hazard to traffic currently using the roadway and will definitely present a problem for the upcoming winter due to the potential of water freezing on the roadway.

I have been advised by the Engineering Department that several years ago you attempted to address this problem, but apparently your solution did not work and the run-off continues on to the County road. This run-off problem must be addressed by you and remedied, or the County of Passaic will have no choice but to take legal action against you if it is not addressed. Be assured that we would much prefer to work with you to solve the problem; thus, I urge you to contact our Engineering Department to arrive at a solution which will remedy the danger to the motoring public without the necessity of our taking legal action.

If you have any questions, please do not hesitate to contact me. Should you continue to ignore this problem, the County of Passaic will have to take appropriate action, as outlined above. Thank you for your attention to this matter.

Very truly yours,

A handwritten signature in cursive script that reads "Michael H. Glovin".

Michael H. Glovin
Assistant County Counsel
