Eleven Tindall Road
Middletown, New Jersey
07748-2792

Dear Mr. Klein:

Enclosed you will find a CD-ROM containing files that we discussed at our April 8th, 2008 meeting in Patterson, New Jersey. At that time you had requested analytical data for samples in the area of the Black Oak Ridge Road and Pompton Plains Crossroad intersection in Wayne, New Jersey to aid in the planning of upcoming road modifications Passaic County is undertaking.

You will find three folders on the enclosed CD-ROM. The folder titled "WISS Property" contains Final Status Survey (FSS) Reports for the main site remediation. Only the FSS Reports for the survey units that border the roadway are included.

The folder titled "Right of Way VP" contains similar FSS Reports, however, these reports were generated at the time remediation was done at the Right of Way vicinity property, located on the Northern side of Pompton Plains Crossroad near Black Oak Ridge Road.

The final folder titled "Roadway" contains a figure and data table for samples taken in 2005 when the USACE did clearance in the roadway for utility work.

I also sent an electronic mail file of special provisions used by NJDOT for work within and adjacent to the FUSRAP Maywood Site. These provisions will need to be revised to suit the needs of the Wayne Site if you choose to use them. We have been given permission by the NJDOT.

If you have any questions, please call me at 201-226-6616, or call my Project Engineer Ms. Ann Ewy at 816-389-3863.

Sincerely,

Allen Roos
Project Manager
