Concern about lack of integration of sampling efforts in OU09	
US Department of Energy (DOE), Albuquerque Production Division Office of Southwestern Area Programs, have concern about lack of integration of sampling efforts in Operable Unit OU09. Original Process Waste Lines (OPWL) with other OUs, as indicated by Rocky Flats (RF) responses to Colorado Department of Health (CDH), US Environmental Protection Agency (EPA), and Rocky Flats Field Office (DOE/RFFO) comments. DOE should minimize duplicative sampling efforts.

Internal letter regards West Spray Field [OU11] Closure	
<p>This internal letter regards West Spray Field [Operable Unit OU11] Closure, February 17, 1988 - The McKay Ditch, which supplies some of Broomfield's drinking water is hampering the exploitation of Mr. McKay's mineral rights, and he desires to relocate this ditch by October 1988. The current design calls for the ditch to pass through the West Spray Field. Approval for relocating this ditch has been received from Mr. Gipp Wilson of the City of Broomfield; however, Mr. Wilson is not aware that the ditch will pass over a Resource Conservation and Recovery Act (RCRA)-regulated area. Preliminary soil samples, and characterization of the water applied, indicate that the soil contamination is probably not present in the West Spray Field. However, the area will be regulated as a RCRA site as long as it is not -clean' closed. [See AR document OU11-A-000191]</p>

Re Church Ranch request, Rockwell / RFP providing encl sched of activities required at the West Spray Field [Operable Unit (OU) OU11]	
<p>In response to Church Ranch request, Rockwell International / Rocky Flats Plant (RFP) is providing the enclosed schedule of activities required at the Operable Unit OU15: the West Spray Field. The West Spray Field is an area which received spray irrigation water from a surface impoundment regulated under provisions of the Resource Conservation and Recovery Act (RCRA). In accordance with RCRA permitting requirements, a Post-Closure Permit Application, which includes plans for -closure' of the area, was submitted to the Colorado Department of Health (CDH) and the US Environmental Protection Agency (EPA) for review and comment in November, 1986. Following approval of plans, the closure activities, including sampling and analysis, will commence.</p>
